

The future is eSIM: by 2028, the travel eSIM market will grow by 410%, and enterprise IoT is surging. For MNOs, this means huge potential, but legacy systems create roadblocks. Integrating with partners is complex, and time to market is slow.

eSIM Express: Your Fast Track to eSIM Monetization

LotusFlare eSIM Express is a cloud-native platform that empowers MNO Wholesale teams to efficiently aggregate, distribute and monetize eSIM connectivity plans with no IT involvement. eSIM Express enables MNOs to monetize their network assets and sell connectivity to the growing universe of eSIM travel apps.

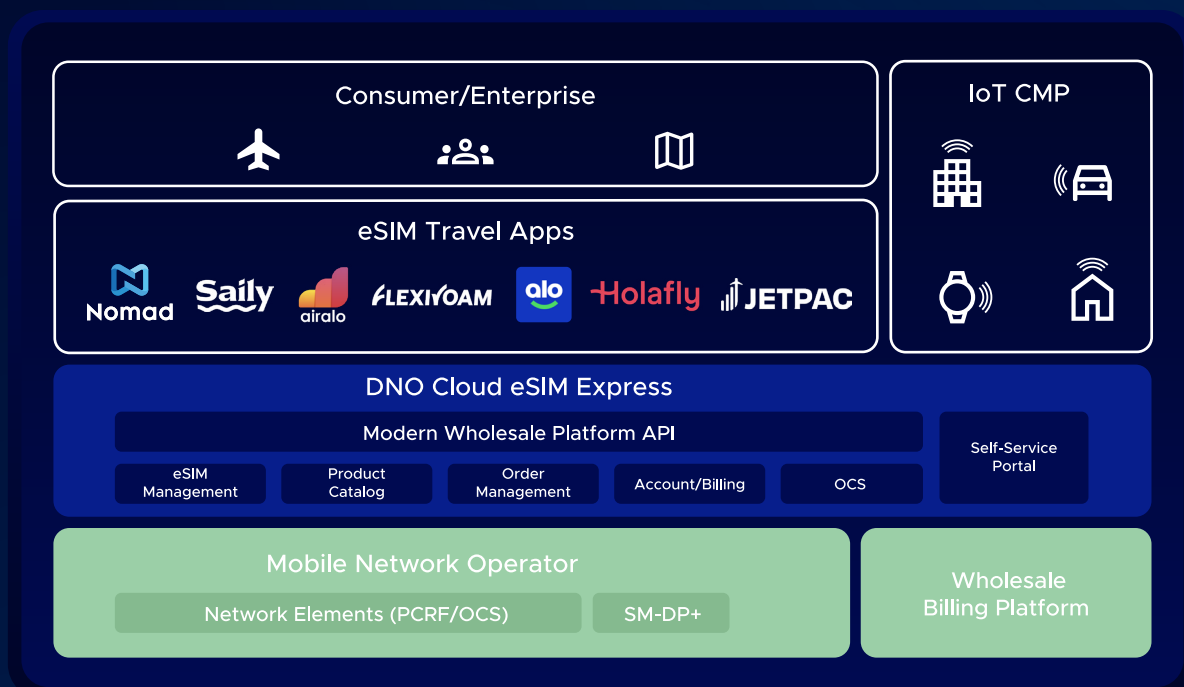

Why Choose eSIM Express?

- Add New eSIM Partners With No IT Integration
- Create and Manage Your Own Bundles
- Single Portal Interface for All eSIM Clients
- Modernize Your eSIM Partner Management
- Only 2-3 Months to Launch

Key Features & Benefits

- **API-Driven Integration:** Seamless connection with your network and easy partner onboarding.
- **Reporting and Analytics:** Actionable insights for you and your partners.
- **Modern Front-End:** Upgrade your wholesale system with a modern front end that easily enables the creation of custom plans and services.
- **No Code:** Empower non-technical staff to onboard new client companies, create plans and offer advanced services without additional IT development.
- **Self-Service Portal:** eSIM resellers manage operations through the self-service admin portal.

Ready to monetize eSIM, the express way?
